

# Sunnyvale Orchard Treasure Hunt

Before Silicon Valley this area was mostly orchards. There are still some places where you be reminded of this. I made a treasure hunt taking you to some of these places. Enjoy!

You can do this alone or in a group, or even with competing teams. I attached the questions as a pdf, so you can print them out and off you go!

Please don't google the questions - where is the fun in that?!

Duration: about 1 to 2 hours

Distance: about 2 miles

Starting point: 490 W California Ave, Sunnyvale, CA 94086 (please obey parking restrictions)

1. What is the Historical Landmark at your starting point?
2. How old is the current structure?
3. The neighborhood between Matilda, Maude, Bayshore Freeway and Fair Oaks Ave is named after a garden pest. What is it?
4. Continue south towards El Camino. On the corner is a shopping center. What is the name?
5. Write down the year C.J. Olson opened.
6. Who is quoted saying the following: "My parents moved from San Francisco to Mountain View when I was five... Silicon Valley for the most part at that time was still orchards -- apricot orchards and prune orchards -- and it was really paradise."
7. Find the Heritage Museum of Sunnyvale. What trees are preserved in the Heritage Park?
8. Make a picture of you / your group as a tree
